How to make Frosting Cream Slime

Frosting Cream Slime

Ingredients

- TOA Latex Glue
- Water
- BeNice Cocktail Series Shower Cream
- Optal eye lotion
- Container
- Something to stir with
- Something to stir in

Steps

1. Add in as much glue as you want (the more you add the more slime you get)
2. Add in 3 bottle caps of water, keep stirring until it feels like yogurt if it's a little too slippery then add a few more caps of water
3. Then add a little bit of of Optal eye lotion stir, then add it in a second time keep on stirring then add just a little bit more of eye lotion
4. Then we're going to add in the BeNice Cocktail Series Shower Cream you want to add only a little bit at a time (don't add too much) you want to stir until you don't see anymore shower cream at this step if you want your slime to be fluffy stir hard then add more shower cream until the slime sticks together into a ball (then add the shower cream in about 2 more times)
5. After it looks like whipped cream add in some more eye lotion and keep on stirring
if your slime still feels sticky when you touch it add a little bit more shower and if you keep on stirring it's going to be like slime and it not going to stick to your hands
7. Then after you are finished playing with your slime put it into a container so the slime doesn't dry out

After that you're done!

How to make Tofu Slime

Tofu Slime

Ingredients:

Glue clear glue or toa latex glue
Shower gel (Johnsons, Bath and body works etc.)
Foam cleanser
Optal eye wash
Container
Something to stir with
Something to stir in

Put in five tablespoons of glue.
Put in 2 tablespoons of shower gel
Put in 1 tablespoon of foam cleanser
Gently stir it
Add optal eye wash until it doesn't stick (gently add)
Put it in a container that has a cap and then tighten it so your slime won't harden

After that you're done!

How to make Slime with Borax

Slime with borax

Ingredients:

Glue Toa latex glue or Elmer's school glue
Water
Borax
Container
Something to stir with
Something to stir in
Glitter and food coloring (optional)

Steps

Put as much glue as you want into a container.
Put in food color if you want to. If you do put in food color stir it until it's smoothly combined together.
The get another container and put warm water in it.
Get your borax solution and then pour it gently into the bowl. Don't put it too much or else it your glue won't turn into slime.
After that pour your glue into the water solution and then stir it.
Knead it with your hands until it doesn't stick.
After that find a container that has a cap and then put it in the container so it won't turn hard.

After that you're done!

How to make Shampoo Slime

Shampoo Slime

Ingredients:

3 in 1 shampoo suave (kids)

Suave coconut shampoo (adult)

Container

Something to stir with

Something to stir in

Steps

Put your 3 in 1 suave shampoo into the thing you are using to stir

Then stir it until it forms into a ball

Add your coconut suave shampoo into it

Stir it until it becomes into slime

And remember to put you are slime into a container after you're done playing with it

After that you're done!

How to make Super Glue Slime

Super Glue Slime

Ingredients

Nail Polish (Optional)

Super Glue (UHU brand)

Water

Something to stir with

Container with a cap

Steps

put in the amount of slime you want into the container

stir it together

Add a little bit of water in until it sticks together

stir it together

put it into the container and close the cap tightly so it won't turn hard

After that you're done!

About me - Mina

My name is Mina and the school that I go to is called Nist international school of Thailand. My best friend is Fay and we wrote this book together. I like to watch YouTube videos, read books and hangout with my best friend 😊
